

Booklist year 1

2023-2024

Study programme: Forensisch Laboratoriumonderzoek

Contact: Romy Kuyvenhoven, romy.kuyvenhoven@hvhl.nl, 058-2846371

- Books can be purchased via Studystore.nl or studyboekwinkel.nl (5% discount as a student)
- Advice: We advise students to be in control of a Windows laptop / computer. This is due to software that is not working properly or is not available for Apple/Unix/Andorid.
- Advice: Experience has shown that some of the students still switch programs or leave the program prematurely. Therefore, our advice is to first purchase the books for term 1 only.
- For some books it is also possible to order an older edition.
- Lab package: Purchase of supplies for safe working in the laboratory. This package has been put together by the school and can be collected from the repro at the beginning of the year. Information will follow. Costs are approximately 75,-

Books
