larenstein**
university of applied sciences

Will you contribute to change?

Are you ready to make a real impact? Do you choose actual climate improvement, equality and fair trade? In this study programme, you will turn your commitment into action and develop into a specialist in international development.

As a specialist, you understand the interests of the various parties, achieving cooperation and sustainability together. You will be able to work worldwide with your knowledge: places range from nature reserves in Uganda and coffee plantations in Peru to the climate lobby in Brussels. Finding a balance between people, the earth and prosperity is paramount during your studies. Not from behind a desk, but in practice and in direct contact.

You can choose from three specialisations: building societies after disasters, a better future for rural populations or fair chains from raw material to consumer. In any event, you will learn to unite people from different cultural and social environments, defend various interests and facilitate innovation. This study programme is an exciting breeding ground in which students with countless ideas and backgrounds work together towards one common goal: a fair society and a healthy earth. We are waiting for you!

Degree

Upon graduation you will receive a Bachelor of Science degree. Our bachelor programmes are accredited by the Accreditation Organisation of the Netherlands and Flanders (NVAO).

Duration

4 years

Language

English

Admission

A secondary school diploma is required, which is equivalent to the Dutch HAVO diploma, e.g. International Baccalaureate diploma or A-Levels. It is highly recommended your diploma has a final examination in mathematics and economics, but this is not a mandatory admission requirement. You need to prove your English proficiency by providing a certificate issued by selected language institutions (TOEFL 80/IELTS 6.0 or other equivalent certificates).

Teachers from the professional field

International internships

Studying in Holland

Holland is well known for being open-minded, tolerant and internationally oriented. Study and living costs are affordable and the quality of Dutch institutions is well-recognised. Off campus you can explore the picturesque nature areas that surround our site in Velp by foot or bike. Throughout the year there are several free festivals, markets and concerts where you can hang out with your friends and meet the locals. Amsterdam, The Hague, Berlin and Paris are only a short train journey away.

"I support producers to make a fair and sustainable living. Together we can make a change"

Alicia Elzinga, student and intern in Ecuador
