## Working towards a fair world

Is it really possible for everyone to profit equally from development while still respecting the environment? In our view it is. Through sustainable trade, equal rights and equal opportunities we believe that a healthy balance between people, earth and prosperity can be achieved.

The Bachelor of International Development Management gives you the knowledge and motivation to take steps towards promoting this balance. In your study programme, you can opt to focus on reconstructing society after natural disasters, empower people living in rural areas or contributing to fair economic chains from raw material to consumer. In all cases, you will learn to bring people together, defend interests of different stakeholders, and to facilitate and support developments and innovation.

You will also learn more about geography, biology and economics. You will deal with intercultural communication, international cooperation, the green economy, reconstruction after disasters, strengthening the position of farmers, fair trade, business administration, and project management. This study programme is an exciting breeding ground in which students with countless ideas and backgrounds work together towards one common goal: a fair society and a healthy earth. We are waiting for you!

### Degree

Upon graduation you will receive a Bachelor of Science degree. Our bachelor programmes are accredited by the Accreditation Organisation of the Netherlands and Flanders (NVAO).

### Duration

4 years, starting in September

### Language

English

### Admission

A secondary school diploma is required, which is equivalent to the Dutch HAVO diploma, e.g. International Baccalaureate diploma or A-Levels. It is highly recommended your diploma has a final examination in mathematics and economics, but this is not a mandatory admission requirement. You need to prove your English proficiency by providing a certificate issued by selected language institutions (TOEFL 80/IELTS 6.0 or other equivalent certificates).

Teachers from the professional field

International internships

Combine theory and practice

### Specialisations

- Sustainable Value Chains
- Rural Development and Innovation
- Disaster Risk Management

### Studying in Holland

Holland is well known for being open-minded, tolerant and internationally oriented. Study and living costs are affordable and the quality of Dutch institutions is well-recognised. Off campus you can explore the picturesque nature areas that surround our site in Velp by foot or bike. Throughout the year there are several free festivals, markets and concerts where you can hang out with your friends and meet the locals. Amsterdam, The Hague, Berlin and Paris are only a short train journey away.

**"I support producers to make a fair and sustainable living. Together we can make a change"**

**Alicia Elzinga**, student and intern in Ecuador

### Come by for a visit!

We would be pleased to welcome you. In addition to our open days, VHL also organises orientation days, one-on-one conversations with students and lecturers, as well as other events. For the latest information and registration, please visit:

### Facts and figures

**15-20** lesson hours per week

**20-25** hours of weekly self-study

Theory **50%** Practice **50%**
