

# Innovative Dairy Chain Management

Master of Science  Leeuwarden, Holland

**van hall  
larenstein**  
university of applied sciences

## Change and innovation

Are you that dairy professional with a keen eye for innovation, strategy and governance, eager to take your career to the next level? Or maybe you are about to graduate for your bachelor and feel like you still haven't finished learning and professionalizing yourself in the dairy chain? The master Innovative Dairy Chain Management is what you are looking for!

This master programme focusses on the dairy chain as a whole, from farm to table and everything in between. How can farms deliver milk of sufficient quantity and excellent quality in a profitable manner while adhering to (safety) requirements of the chain? How can we innovate different processes to meet the industrial and governmental needs? These are some of the issues you will be working on during this master program.

Please visit our website for more information:

## Study programme

Term 1	Term 2	Term 3	Term 4
Dairy Chain Governance	Quality Assurance	Research Design and Implementation	Thesis
Dairy Chain Innovations	Dairy Business Development	Thesis	
Professional Development Part 1		Professional Development Part 2	

## Studying in Holland

Holland is well known for being open-minded, tolerant and internationally-oriented. Study and living costs are affordable and the quality of Dutch institutions is well-recognised. Off campus you can explore the picturesque nature areas that surround our site in Leeuwarden by foot or bike. Throughout the year there are several free festivals, markets and concerts where you can hang out with your friends and meet the locals. Amsterdam, The Hague, Berlin and Paris are only a short train journey away.

**"IDCM holistically explores harnessing the potential of the Dairy Value Chain as a major player in feeding and employing the world"**

**Deo Wonekha, IDCM student**

### Meet us
