Workshop Green Office and the Global Goals **								D009												

ft = full time pt = part time d = Dutch spoken a = different program, more info by Informationdesk

*= A lecture on current relevant topics within their research area, how to apply this knowledge, and the study programmes offered by Van Hall Larenstein.

**= Students of Van Hall Larenstein are engaged global citizens who become active to ensure the future of our planet and future generations. During this workshop you will become acquainted with student activities of the Green Office and you will get to know the 17 Global Goals Framework of the UN and the relation with your future study.

The presentations of Land- and Watermanagement and Garden- and Landscape Architecture also include information about the related associate degrees.

We wish you a very pleasant and educational day. Please share your experiences with **#vanhalllarenstein**

Program activities open day 23 November

van hall larenstein
university of applied sciences

Activities (whole day)	Location	Education	Description
Plants and birds quiz	A017	Forestry and Nature Management	Can you recognize different kinds of birds? At Forestry and Nature Management we have a quiz ready for you to test your knowledge of birds and trees!
Come see a soil drilling profile	A017	Forestry and Nature Management	The soil is where all plant and animal life starts. There are many different types of soil in the Netherlands. We did some drilling this morning on the estate to see what kind of soil we have here. Curious? Come and see at Forestry and Nature Management.
Cow health check	A009	Animal Husbandry/ Applied Animal Science	How to check if a cow is healthy?
Happy Horse Housing	A009	Animal Husbandry/ Equine Sports & Business	During the workshop you will together develop the optimal housing system for horses. A short workshop is offered at 11.00 and 12.30 hrs
Refugee Republic	E007	International Development Management	Do you think refugees are passive victims? Then spend some time in Domiz in northern Iraq and find out what everyday life in a camp is really like.
Cocoa Flavors Film project	E007	International Development Management	The film shows Linda Amponsah and Isaac Twumasi in cocoa warehouses of the port of Amsterdam and also includes historical footage and footage from the Visual Problem Appraisal Flavors of Cocoa and Chocolate.
Demo: Digital DATA mining	C009	Land and Water Management	At Land and Water Management and Forestry and Nature Management we gather digital data with a Total Station and a GPS. Want to see how this works? Come to C009 and watch our demonstration video!
Land- and Watermanagement	C009	Land and Watermanagement	Climate game: Pretend to be a water manager or put on your entrepreneurial hat! Combine safety, nature, economy and sustainable livelihoods within different target groups, and experience how you can make real change. You will develop plans, negotiate and create new opportunities. Play this game with fellow students or see the demo in the Land and Watermanagement room.
Branch test	E023	Garden and Landscape Architecture	Knowing your shrubs and trees is basic knowledge for a garden and landscape architect. At Garden and Landscape Architecture you can test this knowledge. How many shrubs and/or trees do you recognize just by looking at a branch or a leaf?
Visit of the estate and botanical garden	E023	Garden and Landscape Architecture	Visit a small cultivated part of our unique estate with one of our professors and get inspired in our botanical garden. At 10.45, 11.30, 13.00 en 13.45 hrs.
Get busy in our Food Lab!	A019 and A027	Food Technology	Have a peek at our labs and see how students of Food Technology are busy developing new products. You can taste the results!
